

Digital Transformation and Internal Audit

Lior Segal

Course Description

Digital transformation is the integration of digital technology into all areas of a business, fundamentally changing how you operate and deliver value to customers. Digital transformation is also a cultural change that requires organizations to continually challenge the status quo, experiment, and get comfortable with failure. According to «Risk in Focus 2024», Digital disruption, new technology and AI is rated as number 6 towards 2024 and will be rated number 4 within 3 years. Internal auditors need to prepare themselves and to understand how they can evaluate this risk.

Who should attend?

Internal auditors from every business sector

Course Objectives

- Understand Digital transformation main domains.
- Understand the risks associated with Digital transformation.
- Get to know the areas where digital transformation meets Internal Audit.
- Familiarize with the activities of Internal Audit in the Digital transformation area (roles, skills etc.).
